# Wastewater Services

## Hazardous and Non-Hazardous

At TM Corpus Christi Services, we are deeply committed to attentive service, regulatory excellence, and innovative solutions—all of which have established us as a leader in waste management. Our mission is to provide effective solutions that are a great value for our customers—in all industries—and safe for the environment.

### Difficult Wastewater Issues

- Hazardous and non-hazardous wastewater—deepwell injection permits allow a wide variety of waste codes and constituents.
- Large capacity to handle routine and project wastes
- One hazardous injection well

### Tank Clean-Outs and Sludges

- Filtered solids are managed according to applicable land disposal restrictions.
- Container processing via drums, roll-offs, or tank trucks.
- We provide turnkey, off-site services for solid and sludge management.
  - **Simplicity:** We manage liquids, solids, and sludges “as generated.”
  - **Reduced site costs:** Save the costs of service, equipment, and labor costs to dewater and solidify for additional treatment.
  - **Reduced offsite costs:** Our processing capacity reduces time for waste processing and cost of box rental.

### Customer Services

- Manifest preparation
- Transportation arrangements
- Scheduling
- Assistance with the profile and approval process.
- Around-the-clock (24/7) service for special projects and emergencies.

For more information, please call Customer Service at 361-852-8284.

Class 1 underground  
injection wells  
are safer than virtually  
all other waste disposal  
practices, according to the EPA.

—EPA Report 570/9-91-031
